

MONKEYPOX VIRUS SYMPTOMS

ILLNESS LASTS FOR 2-4 WEEKS

WHAT IS MONKEYPOX?

Monkeypox is a viral infection transmitted during prolonged, face-to-face contact, or during intimate physical contact, such as kissing, cuddling, or sex.

High Fever

Intense Headache

Swollen Lymph Nodes

Muscle Aches

Chills

Rash

Anyone can get monkeypox, but men who have sex with men remain at the highest risk.

MONKEYPOX PREVENTION

STAY INFORMED

This is a rapidly changing situation.

Visit CDC or DOH websites to get up-to-date guidance.

CONTACT

If you have symptoms, call your healthcare provider and ask about testing.

PROTECT

If you have symptoms, cover sores and avoid contact with others.
